DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel withdrawn claims 13-33.

In the Abstract: Amend the abstract to be a single paragraph by combining the existing paragraphs.

Allowable Subject Matter

Claims 1-12 and 34-35 are allowed.

The following is an examiner's statement of reasons for allowance:

With regard to independent claim 1, the prior art of record fails to disclose the exhibiting member comprising a plurality of protrusions formed directly on the surface of the sensing member as claimed. The Cimmino reference teaches a coil element which is wound in a dielectric material and attached to the sensing member as opposed to the protrusions claimed. The Cruz-Hernandez reference which does in fact teach the

protrusions does not disclose the sensing member necessary to arrived at the claimed invention, nor does it disclose any teaching of motivation for combining the two references into such an apparatus. The Cundari reference also fails to meet these limitations for similar reasons. Independent claim 10 discloses a method for measuring contours by using an apparatus similar to that of claim 1 which is not taught by the prior art. All dependent claims ultimately depend from either claim 1 or 10 and are deemed allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
